WORK EXPERIENCE

SUPER DELUXE

2018

Lead Software Engineer

Los Angeles, CA

- Designed and built live interactivity features that integrated with Facebook API for streams with 1000+ viewers
- Built out superdeluxe.com/watch and redesigned apps.superdeluxe.com pages and maintained main website
- Deployed staging server for live-kit API and established better tech to user development pipeline through improved release management, new feature demos, and weekly feedback meetings

EDMUNDS.COM, INC.

2012-2017

Vehicle Data Editor – Data Content and Operations

Santa Monica, CA

- Verified and maintained content for website with 14 million unique monthly visitors
- Improved UX of new and legacy data entry/publishing systems with offshore development team
- Improved efficiency by analyzing year-to-date performance using SQL queries

NORTHWESTERN UNIVERSITY

2012

IT Assistant - School of Education and Social Policy

Evanston, IL

- Managed data migration from internal server to box.com
- Set up Mobile Device Management (MDM) systems on hundreds of iPads

APPLICATIONS

Natemoji – *Tabasko Sweet Emoji App*

<https://youtu.be/u3wpiLeOVtl?t=210>

- Built and deployed emoji app in Java on Google Play store with 155 installs
- Updated to V2.0 existing iOS application in Swift and deployed on App Store leading to 254 new installs

MobileMM - *Crowd sourced matchmaking/dating application for iOS/Android*

github.com/jacten/MobileMM

- Developed reusable carousel component with swipe/tap responsiveness, infinite scroll, and dot indicators
- Designed and built intuitive user flow that utilized native features while maintaining core functionality of its web precursor

MatchaMe – *Web precursor to MobileMM*

github.com/the-storage-room/MatchaMe

- Designed, wire-framed, and built fully responsive frontend utilizing CSS grids and media queries
- Led a team of software engineers to bring a large-scale app from planning to soft launch in three weeks
- Architected matchmaking algorithm service that generated potential matches for users based on user 'tags', location, age, etc.

EDUCATION

HACK REACTOR

2018

Advanced Software Engineering Immersive Program

UNIVERSITY OF ILLINOIS URBANA-CHAMPAIGN

2012

BA - History Honors
